- Best Practices

TECHNICAL PROJECTS

SHOES IN STOCK, E-COMMERCE STORE - [GITHUB](#) / [DEMO](#)

- Executed Interaction between frontend and backend database using Next JS and Stripe API.
- Applied Next JS's optimizations to minimize loading times for pictures as well as rendering Next images and static images.
- Produced tools which improved site interaction using Context API and reducers, and allowed users to safely checkout with Stripe Checkout.
- Enabled users to examine multiple products and pages with a high level of efficiency.
- Utilized Next JS, Stripe, and TailwindCSS to bring innovative concepts to life.
- Developed and maintained the user interface as well as created designs for mobile websites.
- Troubleshoot, analyzed, and remediated bugs and conducted usability testing.

MEALS 2 U, FOOD DELIVERY - [GITHUB](#) / [DEMO](#)

- Engineered and launched an engaging landing page through React JS to display modern design and user-interface for a food delivery application
- Incorporated the application across numerous individual components in order to organize code, utilizing styled-components to coordinate CSS styling.
- Generated responsive styling with media queries as a means to optimize a mobile-friendly design which improved user experience.
- Utilized React-Router-Dom package to allow switching between routing of web pages within the application.
- Worked with the client to develop the overall look and design of the website and wrote website code in accordance with client requirements.
- Ensured websites were accessible across many platforms, including laptops and smartphones.
- Tested websites for ease of use, speed, and other quality factors on a continual basis.

FREE GAMER, FREE PC GAMES - [GITHUB](#) / [DEMO](#)

- Configured and deployed intricate source nodes to represent data built from Freetogame API with Gatsby JS.
- Architected detailed home, all-games, and category pages which provided several options for users to display game data.
- Prepared GraphQL queries to pull diverse queries depending on user-selection and routing.
- Employed styled-components to organize CSS specific to certain files for organized code bases.

PROFESSIONAL EXPERIENCE

SOUTHWEST CHEESE, CLOVIS, NM, APRIL 2020 TO DECEMBER 2021

ASSISTANT TEAM LEADER

- Studied, assessed, and enhanced process parameters, ultimately producing 15% product loss instances which occurred every third shift.
- Created and established a comprehensive training curriculum aimed at reducing quarterly injuries by 12.5%.
- Provided diligent support to teams during times of hiring shortages by taking initiative to serve in open positions on the team.

ANYTIME FITNESS, ENGLEWOOD, CO, JUNE 2017 TO JUNE 2018

PERSONAL TRAINER

- Spearheaded the development and implementation of a novel challenge structure, realizing an increase in monthly member attendance rates by 20%.
- Restructured the overall equipment flow and layout to expand space for extra machines and more room per machine.
